***Balochistan Rural Development and Community
Empowerment Programme (BRDCEP)***

Socio-Economic Survey (SES)
(Baseline – 2018)

HOUSEHOLD QUESTIONNAIRE¹

¹ The Questionnaire is being adopted from the PSLM 2007-8 questionnaires and amended according to the needs of this survey.

CONSENT FORM

My name is [name of enumerator] and I am representing Balochistan Rural Support Programme (BRSP) / National Rural Support Programme (NRSP). We are conducting a survey about socio-economic conditions of households and their access to public services [e.g.: drinking water, education, health facilities, etc.] in your area. The information we collect will help the Balochistan Rural Support Programme (BRSP) / National Rural Support Programme (NRSP) better understand the current socio-economic conditions of households and how access to public services affects the economic situation of households living in Balochistan. There are no direct benefits to you for participating in this survey. However, the results of this survey will help the [BRSP/NRSP], government local authorities and other development organisations to develop community development programmes and policies for overall socio-economic improvements and specially empowering poor, poorest and women in Balochistan.

Your household has been randomly selected for the survey, like many other households in this area. We will be asking questions about your household members, age, education, health, income and assets. We think that the whole discussion will not pose any risk to you and your household members. The interview usually takes about 45 minutes. Your answers will remain confidential and will be used anonymously in the survey report. The survey results will not mention any names of you or your household members. Your views are important and will help to improve the work and knowledge of Balochistan Rural Support Programme (BRSP) / National Rural Support Programme (NRSP) and other organisations working for the development in Balochistan.

We understand that sometimes some people choose not to participate in the survey for many reasons. You are free to choose whether or not to participate in this survey. If you do choose to participate, you are free to withdraw from the survey at any time. If you choose not to participate or you choose to withdraw, your decision will not adversely affect your position in community or relationship with Balochistan Rural Support Programme (BRSP) / National Rural Support Programme (NRSP) working in your area.

Authorisation:

I have understood the consent form and decided that I will voluntarily participate in the study described above. Its general purposes, the procedures, and possible risks and benefits have been explained to me.

The consent taken from (Name): _____ Signature (if literate): _____ Date: _____

The consent taken by (Name, if illetrate): _____ Date: _____

Consent verified by (Name): _____ Signature: _____ Date: _____

Note: If the respondent is not literate the enumerator will take verbal consent and the Field Supervisor verifies that a verbal consent was obtained, by signing this document. The signing will occur on a printed sheet of randomly selected households in case of electronically tablet for survey.

B. Household Demography and Political Participation

[Read]

Next, I would like to talk with you about your household and household-members. A household corresponds to a person or a group of persons (either related or not) who habitually live in one house—whether it is fully or partially occupied, share expenditure and who cook in one cooking pot. One household might be composed of one or more families. I would like to talk about all the household members that are currently present or left for short period of time (less-than 6 months duration).

Number of household members (Please do not list guests or visitors):

Now please give the names of all members of your household. Start with head of the household.
